

CELL

2026

November 2026 | London, UK

Sponsorship Brochure

Become a driving force in accelerating
novel biologics processing and
advanced therapy R&D

oxfordglobal.com/nextgen-biomed/

Event Highlights

Cell 2026 is a dynamic and forward-thinking event that brings together leaders from every stage of the cell culture & advanced therapies value chain to shape the future of innovation.

Across nine expertly curated programme tracks, Cell 2026 delivers unparalleled insights to accelerate the discovery, development, and delivery of transformative therapies.

Join us to connect, collaborate, and propel the field into its next era of excellence.

Enquire

If you offer solutions in the following areas,
this event is not to be missed!

Gene Editing Technologies

Bioreactor Systems

Viral Vector Development

Cell Culture Media, Monitoring & Analytics

Cell Engineering Platforms

Downstream Purification Solutions

Cell Line Development

Cryopreservation & Storage

Tissue Engineering

Quality Control & Assurance

Functional Genomics Solutions

Automation, Digitalisation & AI

Immunoassay Technologies

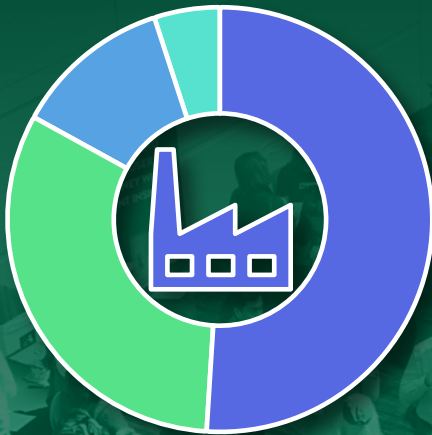

CGT Manufacturing

Clinical Development

CROs & CDMOs

Who Will You Meet?

Participating offers a unique opportunity to connect with established leaders from large and medium-sized pharma and biopharma companies, as well as rising stars and innovative start-ups. What unites them all is a shared need for cutting-edge technologies and services to propel their R&D efforts forward. If you have the right solutions, contact us to discuss how you can get involved.

51% - Industry

32% - Academic

12% - Healthcare

5% - Investor

51%

of attendees in 2025 were managers, head, professors, directors and above

70%

of attendees in 2025 were looking for new solutions

1,000+ attendees are expected for 2026

2025's Attendees Included

a:head bio	Chief Scientific Officer
Adaptimmune	Associate Director
Adaptimmune	Director, Cell Process Development
Alder Therapeutics	Chief Operating Officer
Alder Therapeutics	Chief Executive Officer
Amarna Therapeutics	Director
Anthony Nolan	Director of Immune & Advanced Therapies
Aspen Neuroscience, Inc.	Vice President, Process & Analytical Devt
AstraZeneca	Director
Autolus	Senior Director
Autolus	Associate Director
AviadoBio	Director
AviadoBio	Director CMC
Avigen	Chief Executive Officer
baSeq	Chief Scientific Officer
BlueRock Therapeutics	Senior Vice President
BlueRock Therapeutics	Senior Director
Bright Biotech	Chief Executive Officer
Cabaletta Bio	Senior Director
Cancer Vaccines	Chief Executive Officer
CellProthera	Chief Scientific Officer
Cellula Therapeutics	Chief Executive Officer
Cizzle Biotechnology	Executive Chairman
Eli Lilly	Director
Ernexa Therapeutics	Chief Executive Officer
EXO Biologics	Chief Scientific Officer
Fortrea	Head Cell and Gene Therapy
Glycostem Therapeutics	Chief Operating Officer
GSK	Director
Hammersmith Hospital	Director
Helene Therapeutics	Chief Scientific Officer
Hepatican Ltd	Chief Operating Officer
Ikarovec Limited	Chief Scientific Officer
Immatics	Director- Analytical Development
Immatics Biotechnologies	Vice President
Immunokey	Chief Scientific Officer
Immunokey	Chief Executive Officer
INmune Bio Inc.	Chief Scientific Officer

INmune Bio Inc.	Chief Manufacturing Officer
Jaguar Gene Therapy	Senior Director, Research
JLM ExoGrade LLC	Chief Executive Officer
Kyowa Kirin Co, Ltd	Senior Director, Cell & Gene therapy
Kyowa Kirin Pharmaceutical	Global Head of Development Strategy
Leucid	Director
LIFT BioSciences	Chief Scientific Officer
Micregen	Director of R&D
Novartis	Associate Director
Novo Nordisk	Chief Development Officer
Orchard Therapeutics	Chief Executive Officer
Orchard Therapeutics	Director MSAT
OutFox Bio Ltd	Chief Executive Officer
Penta Therapeutics	Head Therapeutics Discovery
PeraCEOs	Chief Executive Officer
Plasticell	Research Director
Prokarium	Chief Operating Officer
Queen Mary University London	Professor of Comp Biology, AI & Emerging Tech
QUICKR Bio	Co-founder & Chief Executive Office
REGENXBIO	Director
ReNeuron Ltd	Managing Director & Chief Scientific Officer
RenewalBio	Chief Executive Officer
Resolution Therapeutics	Vice President Process Development
Retro Biosciences	Chief Executive Officer
ReYou Suisse	Chief Scientific Officer
Rinri Therapeutics	Chief Scientific Officer
Rinri Therapeutics	Chief Technology Officer
Roche	Principal Safety Director ATMP
Roche Innovation Center	Head of Research
Santorini Scientific Ltd	Director
Spur Therapeutics	Director Technical Operations
symphoRNA	Co-Founder & Chief Scientific Officer
Tenpoint Therapeutics	Chief Technical Officer
TreeFrog Therapeutics	Chief Regulatory and Quality Officer
Videregen Limited	Chief Executive Officer

How We Can Support Your Work

The NextGen Biomed Team can collaborate with you to design a sponsorship package that is tailored to align with your unique objectives.

Our aim is to ensure that every element of the sponsorship is crafted to maximize impact and value, providing a perfectly matched fit for your goals.

Enquire

Be Recognised

The scale and reach of CELL community positions your company in front of senior pharma and biotech leaders across the novel biologics processing and advanced therapies R&D value chain. Showcase your expertise onsite and extend your visibility through post-event coverage and digital channels, ensuring sustained brand presence beyond the congress itself.

Secure Strategic Partnerships

Meet face-to-face with pre-qualified delegates matched to your solutions, supported by detailed pre-meeting intelligence to maximise productivity. Engage with stakeholders who hold budgets and influence purchasing decisions, accelerating meaningful commercial conversations.

Shape the Conversation

Take the stage through panels, workshops, and speaking opportunities that elevate your organisation as a thought leader. Contribute insights, influence industry direction, and align your brand with the scientific and operational challenges shaping the sector.

Activate High-Value Networking

Engage in curated networking environments designed to generate new opportunities within the group of attendees sitting closest to your ideal customer profile. Expand your reach within the community and open doors to conversations that may not emerge through structured meetings alone.

Build Partnerships That Last

Move beyond initial introductions to develop enduring partnerships. Identify strategic alignment, explore collaboration potential, and establish relationships that support growth

Sponsorship Packages

All packages also include as standard:

All sponsors are clearly displayed on the event website, with biography and link to your homepage.

Your sponsorship is also reflected in a dedicated page on the online platform, which you can access for two weeks prior to, and post-event.

All sponsorships include unlimited conference passes for your clients.

Each sponsor company will gain post-event access to LiveScienceXchange, our new digital content platform.

Enquire

“We chose to partner for this event because it offers the right amount of science, the right amount of partners and biology providers. It’s really a good forum for scientists, reps, business development to mingle and understand what the new technologies are in the field and to have an opportunity to discuss that in a relaxed environment.”

ANDRE RAPOSO, Director of Innovation, OXB

“For me, the biggest highlight has been the interaction with the customers. We’ve met quite a few new customers or potential customers as well as existing ones, and also we’ve been able to raise the profile of our products. The fact that we’ve been able to arrange meetings have been really beneficial in doing that.”

STEPHEN ROBINSON, Product Manager, Air Products

“This is a really intimate environment for us to really interact with the other attendees at a personal level, so I love this environment. It allows me to have many, many meetings and conversations that sparks potential collaboration. There’s a lot of relevant people here, a lot of senior people here and we feel that there’s there’s good value into the one-to-one networking sessions. The footfall at the booth has been really fantastic and I think we’re probably going to be here again next year”

LIJUN WANG, CEO, Cojourney
